

## A COMPLETE RANGE OF PROSAFE FILTERS

We offer a complete range of ProSafe filters designed to comply with the strict demands on safety, traceability and control in the Food & Beverage and Life Science industries.

### BENEFITS WITH ALL PROSAFE FILTERS:

- Specially designed for process safety (Food & Beverage and Life Science applications)
- All HEPA classified ProSafe filters are thoroughly tested before they leave the factory to eliminate potential leakage
- The quality of the raw material (or filter media as we call it) is the highest. It is tested and developed according to very precise specifications
- Approved for food product contact according to EC 1935:2004
- Prevents microbial contamination according to ISO 846
- Sturdy, moisture- and corrosion-resistant for a hygienic HVAC system according to VDI6022
- Tested resistance to chemicals used for cleaning and decontamination processes in clean rooms
- Free of harmful chemical components such as Formaldehyde, Phthalates and Bisphenol-A
- All ProSafe filters are packed individually in a hygienic bag

\* A+ in F7 according to Eurovent RS 4/C/001-2015

\*\* A+ in F7/F8/F9 according to Eurovent RS 4/C/001-2015

### HI-FLO PROSAFE \*

This is a pocket filter with high efficiency used for air-conditioning applications and preparatory filtration in clean rooms. Optimised pocket design for the best energy-efficient air distribution.

### ABSOLUTE V PROSAFE

Absolute is a HEPA compact filter with high reliability. Now it also meets the requirements of ProSafe and can be used in the extremely demanding environments of the Food & Beverage and Life Science industries.

### M-PLEAT & ECOPLEAT PROSAFE

Protect your complete installation thanks to ProSafe pleated panels from M5 to F9, from intake air to return air.

### OPAKFIL PROSAFE ES \*\*

Specially produced to fulfil the strict safety requirements for preparatory filtration of air for clean rooms in the most energy efficient way.

### MEGALAM PROSAFE

The original Megalam MD/MX/MG air filters with Gel or PU gasket are superior products that give you the highest possible level of protection. Megalam is the final, safe barrier protecting your sensitive processes from harmful particles.

It is a panel filter that is typically applied in terminal housings, clean room ceilings or LAF benches. Its components have provided the base for the development of Camfil's ProSafe range. And these components have also been the basis for the high quality standardisation of the whole Camfil filter range.

### HI-CAP PROSAFE

This bag filter is designed to remove the largest particles. Used for preparatory filtration of air in clean rooms. It has rigid self-supporting pockets.

### AIR CLEANER CC 6000 PROSAFE

For you in the Food & Beverage- and Life Science industry, air is one of the most important ingredients. That's why effective recirculation by Camfil air Cleaners that reduce the levels of microorganisms in the air are vital. In addition, legislation and market demands are becoming increasingly tougher on hygiene in the food & beverage and life science industry.

- Approved for food product contact according to EC 1935:2004
- Prevents microbial contamination according to ISO 846
- Sturdy, moisture- and corrosion resistant for a hygienic HVAC system according to VDI6022
- Tested resistance to chemicals used for cleaning and decontamination processes in clean rooms
- Free of harmful chemical components such as Formaldehyde, Phthalates and Bisphenol-A
- Flexible solution
- Plug and play installation
- IP54 protection
