## Company Profile

Established in 2004, Fulsun Fire-Fighting Technology Co., Ltd. is a modern professional manufacturer and exporter that is concerned with the design, development and production of fire fighting equipments. We are located in Xikou Industrial Zone, Meilin Street, Nan'an, Quanzhou, Fujian, China (Mainland). All of our products comply with excellent quality and carefully selected materials and are greatly appreciated in a variety of different markets throughout the world.

We are specialized on offering complete fire fighting equipments, fire protection systems, fire alarms and security systems. As a result of our high quality products and outstanding customer service, we have gained a global sales network reaching Eastern Europe, Southeast Asia, Mid East, North America, South America.

We welcome OEM orders at home and abroad. If you are interested in any of our products or would like to discuss a custom order, please feel free to contact us and welcome to our company. We are looking forward to forming successful business relationships with all the clients around the world in the near future.
