

KASUNAIR

MINISPLIT AIR CONDITIONERS

● Fan Coil Unit

- Complete family of concealed models-available in capacities ranging from 12,000 to 60,000 Btu/h
- Compact height-only 255mm. for 12,000 to 36,000 Btu/h models- the FSF Series is very compact for easy installation into tight ceiling locations.
- Return air plenum provides low air face velocity for quiet operation-the 42,000 to 60,000 Btu/h models are equipped with the return air plenum and 1 inch aluminum filter as standard.

- Triple protection drain pan-three layers provide maximum insulation and water integrity. First, a single piece of galvanized steel; next, a single piece of polystyrene; and finally, a vacuum formed plastic liner.
- The 12,000, 18,000 and 24,000 Btu/h models can be used in a multi-split system.
- Full capacity-the KSF Series as been tested and provide full capacity and energy savings.

Condensing Unit

High efficiency unit with reliable slit-type aluminum fin. Compact unit size allows for installation in limited or confined spaces.
Options: Blue fin, Copper fin, Stainless casing.
